

## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Sam Gambacorta  
DOCKET NO.: 04-26509.001-R-1  
PARCEL NO.: 05-33-111-074-0000

The parties of record before the Property Tax Appeal Board are Sam Gambacorta, the appellant, and the Cook County Board of Review.

The subject property consists of a 49-year-old, one-story, single-family dwelling of frame and masonry construction containing 1,194 square feet of living area and located in New Trier Township, Cook County. Features of the home include two and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a one-car attached garage.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page letter, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story or one and one-half story, single-family dwellings of frame or masonry construction located within a five block radius of the subject. The improvements range in size from 1,249 to 1,660 square feet of living area and range in age from 48 to 114 years. The comparables contain one, one and one-half or two full bathrooms and a finished or unfinished basement. Three comparables contain air-conditioning, one comparable has a fireplace and three comparables contain a one-car or two-car garage. The improvement assessments range from \$13.51 to \$18.20 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 12,355
IMPR.:	\$ 25,073
TOTAL:	\$ 37,428

Subject only to the State multiplier as applicable.

PTAB/rfd5348

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$37,428. The subject's improvement assessment is \$25,073 or \$21.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, 48 or 56-year-old, single-family dwellings of frame and masonry construction located within the same survey block as the subject. The improvements range in size from 1,049 to 1,426 square feet of living area. The comparables contain one, one and one-half or two and one-half bathrooms, a finished or unfinished basement, a fireplace and a one-car garage. Two comparables have air-conditioning. The improvement assessments range from \$21.03 to \$23.07 per square foot of living area. The board's evidence disclosed that the subject sold in May 2003 for \$395,000.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age and amenities and have higher per square foot improvement assessments than the subject. He also stated that the subject's current assessment is in line with the subject's recent purchase price. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

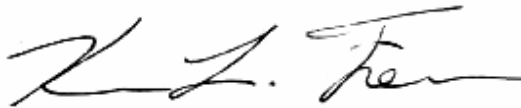

The Board finds the appellant's comparables two and four and the board of review's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age and location have improvement assessments ranging from \$17.19 to \$23.07 per square foot of living area. The subject's per square foot improvement assessment of \$21.00 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size, construction and/or age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
